Puppy Love

A puppy needs love and care just like a baby. The most important thing a puppy needs is to get his shots from the doctor.

These are a few other things a puppy needs: a leash, food dish, dog food, a brush and a small cage.

A puppy needs to be trained. You need to take your puppy outside to play. They need to move around.

A puppy can go to the bathroom inside or outside. If you put newspaper on the floor in the house you can train him to go to the bathroom on it.

A puppy will need lots of toys to chew on. If he has toys to chew on then he won't chew up everything in your house. Puppies' teeth are growing, and they need to chew on things to make them stronger.

Baths keep your puppy clean. After he has a bath, you can brush him. This will make him feel good.

If you leave the puppy home alone, you should put him in a cage so that he does not mess up your house. Your puppy may cry if you leave him alone. When you come home, he will be happy to see you.
