Chapter 9: DIBELS Oral Reading Fluency (DORF)

Overview

| Basic Early Literacy Skill | Advanced Phonics and Word Attack Skills  
|                           | Accurate and Fluent Reading of Connected Text  
|                           | Reading Comprehension  
| Administration Time       | 1 minute plus 1 minute maximum for Retell  
| Administration Schedule   | Middle of first grade through end of sixth grade  
| Scores                    | • Median number of words correct per minute (Words Correct)  
|                           | • Median number of errors per minute (Errors)  
|                           | • Median number of correct words in the Retell  
|                           | • Median Quality of Response for the Retell  
| Wait Rule                 | On DORF, 3 seconds; On Retell, first hesitation 3 seconds  
| Discontinue Rule          | If no words are read correctly in the first line, say Stop, record a score of 0, and do not administer Retell.  
|                           | If fewer than 10 words are read correctly on passage #1 during benchmark assessment, do not administer Retell or passages #2 and #3.  
|                           | If fewer than 40 words are read correctly on any passage, use professional judgment whether to administer Retell for that passage.  

What is DORF?

DIBELS Oral Reading Fluency (DORF) is a measure of advanced phonics and word attack skills, accurate and fluent reading of connected text, and reading comprehension. The DORF passages and procedures are based on the program of research and development of Curriculum-Based Measurement of reading by Stan Deno and colleagues at the University of Minnesota (Deno, 1989). There are two components to DORF: oral reading fluency and passage retell. For the oral reading fluency component, students are given an unfamiliar, grade-level passage of text and asked to read for 1 minute. Errors such as substitutions, omissions, and hesitations for more than 3 seconds are marked while listening to the student read aloud. For benchmark assessment, students are asked to read three different grade-level passages for 1 minute each. The score is the median number of words read correctly and the median number of errors across the three passages. Using the median score from three passages gives the best indicator of student performance over a range of different text and content. The oral reading fluency component can be used winter of first grade through spring of sixth grade. The passage retell component follows the reading of each passage, provided that the student has read at least
40 words correct per minute on a given passage. Passage retell is intended to provide a comprehension check for the DORG assessment, and provides an indication that the student is reading for meaning. With a prompted passage retell, the student is instructed to read for meaning. Speed-reading without attending to text comprehension is undesirable and will be readily apparent in the student’s retell.

Case studies have documented students who can read words but not comprehend what they read (Dewitz & Dewitz, 2003). There is concern that students who display similar reading behavior will not be identified without a comprehension check. Passage retell provides an efficient procedure to identify those students who are not able to talk about what they have just read. Inclusion of passage retell also explicitly instructs students to be reading fluently for meaning. The quality of a student’s retell provides valuable information about overall reading proficiency and oral language skills.

During retell, the student is asked to tell about what he/she has read. Passage retell provides a valuable indicator of reading comprehension. The assessor indicates the number of words in the retell that are related to the passage by drawing through a box of numbers. Following a hesitation of 3 seconds, students are prompted to tell as much as they can about the passage. If the student hesitates again for 5 seconds or longer, or if the student is clearly responding for 5 seconds in a way that is not relevant to the passage, the task is discontinued. The assessor must make a judgment about the relevance of the retell to the passage. Retell can be used from the middle of first grade through the spring of sixth grade. A quality of response rating allows the assessor to make a qualitative rating of the quality of the student’s response. The rating should be based on how well the student retold the portion of the passage that he/she read.

Materials
- Scoring Booklet
- Pen/pencil
- Student materials
- Stopwatch
- Clipboard

Administration Directions
For Oral Reading Fluency:
Follow these directions exactly each time with each student. Say the words in bold italic type verbatim. Put the student copy of the reading passage in front of the student and say the following:

► I would like you to read a story to me. Please do your best reading. If you do not know a word, I will read the word for you. Keep reading until I say “stop.” Be ready to tell me all about the story when you finish. (Place the passage in front of the student.)

► Begin testing. Put your finger under the first word (point to the first word of the passage). Ready, begin.

1. Do not read the title to the student. If the student chooses to read the title, do not start the stopwatch until he/she reads the first word of the passage. If the student asks you to tell him/her a word in the title or struggles with a word in the title for 3 seconds, say the word. Do not correct any errors the student makes while reading the title.

2. Start the stopwatch after the student says the first word of the passage. If the student is silent or struggles for 3 seconds with the first word of the passage, say the word, mark it as incorrect, and start the stopwatch.
3. During benchmark assessment, three passages are administered if the student reads 10 or more words correctly on the first passage. When administering the second and third passages, use the following shortened directions:

► Now read this story to me. Please do your best reading. Ready, begin.

4. During the testing:
   • Follow along in the student's scoring booklet.
   • Leave blank any words read correctly. Mark a slash (/) through errors (including skipped words).
   • The maximum wait time for each word is 3 seconds. If the student does not provide the word within 3 seconds, say the word and mark it as incorrect.
   • During benchmark assessment, students read three different passages, for 1 minute each. If the student reads fewer than 10 words correctly on the first passage, record his/her score for words correct and errors on the front cover of the booklet, and do not administer passages 2 and 3.
   • At the end of 1 minute, place a bracket (] ) in the text after the last word provided by the student. Say Stop and remove the passage. If the student completes the assessment before 1 minute, stop testing and record the student's score. Scores are not prorated.

Note: If the student is in the middle of a sentence at the end of 1 minute, you may allow the student to finish the sentence, but score only the words said up to the end of 1 minute.

5. If the student reads 40 or more words correctly on the passage, have the student retell what he/she has just read using the directions provided below. If the student reads fewer than 40 words correctly on a passage, use professional judgment whether to administer Retell for that passage.

For Retell:
1. Remove the passage from the student and say the following:

► Now tell me as much as you can about the story you just read. Ready, begin.

2. Start the stopwatch and allow a maximum of 1 minute for the retell.

3. The first time the student stops or hesitates for 3 seconds, select one of the following:
   • If the student has not said anything at all, provides a very limited response, or provides an off-track response, say Tell me as much as you can about the story.
   • Otherwise, ask Can you tell me anything more about the story? This reminder may be used only once.

After the reminder, the next time the student hesitates or gets off track for 5 seconds, say Thank you, discontinue the task, and record the score on the front of the student's scoring booklet.

4. During the testing:
   • As the student is responding, move your pen through the Retell numbers grid that appears after the passage to count the number of words the student says that are related to the passage.
• Stop moving your pen through the numbers if the student stops retelling the story or if his/her retell is not relevant to the story just read.

• If the student’s response goes on for more than 1 minute, say Thank you, discontinue the task, circle the total number of words in the student’s retell, and record the number on the “Retell Total” line.

• When the student has finished responding or has met the discontinue criteria, circle the total number of words in the student’s retell, and record the number on the “Retell Total” line.

After testing:

1. Immediately after testing:
   • Score reading passages immediately after administration. Use the cumulative word count to determine the total number of words read. Record that total on the “Total Words” line on the scoring page.
   • Record the number of errors (including skipped words) on the “Errors” line on the scoring page.
   • Subtract the number of errors from the total words to get the number of words correct and record it on the “Words correct” line.
   • Use the Retell Quality of Response Rubric (below) to rate the quality of the student’s retell response, based on the portion of the passage that the student read. These ratings are not used for determining the DORF score, but may be helpful for focusing additional comprehension assessment or comprehension instruction. Circle the retell rating.

<table>
<thead>
<tr>
<th>Quality of Response:</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 Provides 2 or fewer details</td>
</tr>
<tr>
<td>2 Provides 3 or more details</td>
</tr>
<tr>
<td>3 Provides 3 or more details in a meaningful sequence</td>
</tr>
<tr>
<td>4 Provides 3 or more details in a meaningful sequence that captures a main idea</td>
</tr>
</tbody>
</table>

2. At a later time (shortly after the testing when you are no longer with the student) compute the student’s final DORF scores:
   • During benchmark assessment, if the student reads three passages, record all three Words Correct scores and all three error counts on the front cover of the student’s scoring booklet, and circle the median (middle) Words Correct score and median (middle) error count. For example, if the Words Correct across the three passages are 42, 28, and 35, circle the 35. If the student’s errors are 4, 6, and 7, circle the 6. If two scores are the same number, that number is the median. For example, if the scores are 62, 58, and 62, the median is 62.
   • During benchmark assessment, if the student provides a retell after all three passages, record all three retell scores and all three Quality of Response values on the front cover of the student’s scoring booklet and circle the median (middle) score and median (middle) Quality of Response. For example, if the student’s retell scores across the three passages are 12, 8, and 5, circle the 8. If two scores are the same number, that number is the median. For example, if the Quality of Response values are 2, 3, and 2, the median is 2. If the student meets the criteria to engage in retell on only two passages, the median is the average of the two numbers.
• Most data management services will calculate the student's accuracy rate for you. To calculate the accuracy yourself, use the following formula:

\[
\text{Accuracy} = 100 \times \frac{\text{median words correct}}{\text{median words correct} + \text{median errors}}
\]

### Scoring Rules for DORF

The student receives 1 point for each word read correctly in 1 minute.

1. Leave blank any words the student reads correctly. Inserted words are not counted. To be counted as correct, words must be read as whole words and pronounced correctly for the context of the sentence.

2. Mark a slash (/) through any errors. Errors include words read incorrectly, substitutions, skipped words, hesitations of more than 3 seconds, words read out of order, and words that are sounded out but not read as a whole word.

### Discontinue Rule

Discontinue administering DORF if the student reads zero words correctly in the first line of the first passage. Record a score of 0 on the “Total words” line on the scoring page and in the DORF Words Correct score box on the front cover of the student's scoring booklet. If the student reads fewer than 10 words correctly on the first passage during benchmark assessment, do not administer Retell or the second and third passages. If the student reads fewer than 40 words correctly on any passage, use professional judgment on whether to administer Retell for that passage.

### Wait Rule

Wait 3 seconds for the student to respond. If the student hesitates for 3 seconds on a word, mark a slash (/) through it and read the word to the student. If necessary, indicate for the student to continue with the next word by pointing.

### Reminders

If the student stops reading (and it’s not a hesitation on a specific item), say Keep going. This reminder may be used as often as needed.

If the student loses her/his place while reading, point. This reminder may be used as often as needed.

**Note:**

Students are not penalized for differences in pronunciation due to dialect, articulation delays or impairments, or for pronunciations due to speaking a first language other than English.

### Examples of Scoring Rules

The following are examples of how to score responses on DORF. The examples do not encompass all possible responses. If in doubt about how to score a student response, refer to the scoring rules above. Please pay attention to the notes included with the examples as they provide scoring explanations and indicate variations and nuances related to the scoring.
Scoring Rule 1: Leave blank any words the student reads correctly. Inserted words are not counted. To be counted as correct, words must be read as whole words and pronounced correctly for the context of the sentence.

Examples:

**Student response**
It was hot at the beach.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach.</td>
</tr>
<tr>
<td>14</td>
<td>Mr. Smith doesn’t mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.</td>
</tr>
</tbody>
</table>

**How to score**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>6</td>
</tr>
<tr>
<td>Errors (include skipped words):</td>
<td>0</td>
</tr>
<tr>
<td>Words correct:</td>
<td>6</td>
</tr>
</tbody>
</table>

**Student response**
It was hot at the beach.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach.</td>
</tr>
<tr>
<td>14</td>
<td>Mr. Smith doesn’t mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.</td>
</tr>
</tbody>
</table>

**How to score**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>6</td>
</tr>
<tr>
<td>Errors (include skipped words):</td>
<td>0</td>
</tr>
<tr>
<td>Words correct:</td>
<td>6</td>
</tr>
</tbody>
</table>

Note: To be counted as correct, the whole word must be read.

**Student response**
It was hot and sunny at the beach.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot and sunny at the beach.</td>
</tr>
<tr>
<td>14</td>
<td>Mr. Smith doesn’t mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.</td>
</tr>
</tbody>
</table>

**How to score**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>6</td>
</tr>
<tr>
<td>Errors (include skipped words):</td>
<td>0</td>
</tr>
<tr>
<td>Words correct:</td>
<td>6</td>
</tr>
</tbody>
</table>

Note: Inserted words are ignored and not counted as errors. The student does not get additional credit for inserted words. If the student frequently inserts extra words, note the pattern at the bottom of the scoring page.
Student response: It was hot at the beach.

How to score:

<table>
<thead>
<tr>
<th>Errors (include skipped words):</th>
<th>- 0</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>6</td>
</tr>
<tr>
<td>Words correct:</td>
<td>6</td>
</tr>
</tbody>
</table>

Note: Words that are repeated and phrases that are re-read are not scored as incorrect and are ignored in scoring.

Student response: It was hot at the bank... I mean beach.

How to score:

<table>
<thead>
<tr>
<th>Errors (include skipped words):</th>
<th>- 0</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>6</td>
</tr>
<tr>
<td>Words correct:</td>
<td>6</td>
</tr>
</tbody>
</table>

Note: A word is scored as correct if it is initially mispronounced but the student self-corrects within 3 seconds. Mark SC above the word and score as correct.

Student response: It was hot at the beach in Dubay.

How to score:

<table>
<thead>
<tr>
<th>Errors (include skipped words):</th>
<th>- 0</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total words:</td>
<td>8</td>
</tr>
<tr>
<td>Words correct:</td>
<td>8</td>
</tr>
</tbody>
</table>

Note: If the student reads a proper noun with correct pronunciation or with any reasonable phonetic pronunciation, it is counted as correct. Reasonable phonetic pronunciation includes, but is not limited to, left to right sequential decoding, an accurate number of phonemes, and errors that represent knowledge of probable phonetic decoding based upon English orthography (McGuinness, 1997). This rule applies to all proper nouns.
**Student response**

It was hot at the beach. Mister Smith doesn't mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.

<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
<th>Location</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach. Mr. Smith doesn't mind the heat. He has</td>
<td>14</td>
<td></td>
</tr>
<tr>
<td>14</td>
<td>had a part-time job there as a lifeguard for twenty-four years</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total words:** 27

**Errors (include skipped words):** 0

**Words correct:** 27

**Note:**
1) Abbreviations should be read in the way they would be pronounced in conversation.
2) Numerals must be read correctly within the context of the sentence.
3) Hyphenated words count as two words (and two errors) if both parts can stand alone as individual words. Hyphenated words count as one word if either part cannot stand alone as an individual word (e.g., x-ray, t-shirt).

**Scoring Rule 2:** Mark a slash (/) through any errors. Errors include words read incorrectly, substitutions, skipped words, hesitations of more than 3 seconds, words read out of order, and words that are sounded out but not read as a whole word.

**Examples:**

**Student response**

It is hot at the beach.

<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
<th>Location</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach. Mr. Smith doesn't mind the heat. He has</td>
<td>14</td>
<td></td>
</tr>
<tr>
<td>14</td>
<td>had a part-time job there as a lifeguard for twenty-four years</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total words:** 6

**Errors (include skipped words):** 1

**Words correct:** 5

**Student response**

It was hot at the /b/ /el/ /a/ /ch/.

<table>
<thead>
<tr>
<th>Error</th>
<th>Description</th>
<th>Location</th>
<th>Count</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach. Mr. Smith doesn't mind the heat. He has</td>
<td>14</td>
<td></td>
</tr>
<tr>
<td>14</td>
<td>had a part-time job there as a lifeguard for twenty-four years</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total words:** 6

**Errors (include skipped words):** 1

**Words correct:** 5

**Note:** Students must read the whole word, not just the sounds, to be counted as correct.
### Student Response 1
It was hot at the barn. Mr. Smith doesn't mind the heat. He has had a part-time job at the barn as a lifeguard for twenty-four years.

<table>
<thead>
<tr>
<th>Error</th>
<th>Corrected Line</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach. Mr. Smith doesn't mind the heat. He has had a part-time job at the barn as a lifeguard for twenty-four years.</td>
</tr>
<tr>
<td>14</td>
<td></td>
</tr>
</tbody>
</table>

**How to Score**
- Total words: **29**
- Errors (include skipped words): **2**
- Words correct: **27**

**Note:** If a student reads the same word incorrectly multiple times in the passage, it counts as an error each time.

### Student Response 2
It was at the beach. Mr. Smith doesn't mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.

<table>
<thead>
<tr>
<th>Error</th>
<th>Corrected Line</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was at the beach. Mr. Smith doesn't mind the heat. He has had a part-time job there as a lifeguard for twenty-four years.</td>
</tr>
<tr>
<td>14</td>
<td></td>
</tr>
</tbody>
</table>

**How to Score**
- Total words: **6**
- Errors (include skipped words): **1**
- Words correct: **5**

**Note:** Omitted words are scored as incorrect.

### Student Response 3
It was hot at the beach. Mr. Smith doesn't mind the heat. He has usually works on weekends when the beach is crowded.

<table>
<thead>
<tr>
<th>Error</th>
<th>Corrected Line</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>It was hot at the beach Mr. Smith doesn't mind the heat. He has usually worked on weekends when the beach is crowded.</td>
</tr>
<tr>
<td>14</td>
<td>had a part-time job there as a lifeguard for twenty-four years.</td>
</tr>
<tr>
<td>28</td>
<td>usually works on weekends when the beach is crowded.</td>
</tr>
</tbody>
</table>

**How to Score**
- Total words: **37**
- Errors (include skipped words): **14**
- Words correct: **23**

**Note:** If a student skips a row of text, draw a line through the entire row and count the omitted words as errors.
Student response: It was high at the beach.

```
0  It was hot at the beach Mr. Smith doesn't mind the heat. He has 14

14 had a part-time job there as a lifeguard for twenty-four years. 27
```

**How to score**

- Total words: 6
- Errors (include skipped words): 1
- Words correct: 5

**Note:** If a student substitutes a word for the word that is written on the page, it is an error.

---

Student response: It was hot at the b...b...b...be...(3 seconds)...(assessor says "beach").

```
0  It was hot at the beach Mr. Smith doesn't mind the heat. He has 14

14 had a part-time job there as a lifeguard for twenty-four years. 27
```

**How to score**

- Total words: 6
- Errors (include skipped words): 1
- Words correct: 5

**Note:** If a student hesitates or struggles with a word for 3 seconds, tell the student the word and mark the word as incorrect. If necessary, indicate for the student to continue with the next word by pointing.

---

Student response: Mr. Smith dived into the ocean to cool off.

```
0  Mr. Smith dived into the ocean to cool off It was hot at the 14

14 beach but Mr. Smith didn't mind. He has had a part-time job there 28

28 as a lifeguard for twenty-four years. 35
```

**How to score**

- Total words: 9
- Errors (include skipped words): 1
- Words correct: 8

**Note:** If a word is pronounced incorrectly given the context of the sentence, it is scored as an error.
Scoring Rules for Retell

The student receives 1 point for every word in his/her retell that is related to the passage.

1. Count as correct any words in the response that are related to the passage. The judgment is based on whether the student is retelling the passage or has gotten off track on another passage or topic. Move your pen through a number in the scoring booklet for each word the student provides that is related to the passage.

2. Count as incorrect any words in the response that are not related to the passage that the student read. Do not move your pen through a number in the scoring booklet for words that are not related to the passage that the student read.

Discontinue Rule

After the first Wait Rule reminder (see below), if the student does not say anything or gets off track for 5 seconds, say Thank you and discontinue the task.
Wait Rule/Reminder
If the student stops or hesitates for 3 seconds, select one of the following:

- If the student has not said anything at all, provides a very limited response, or provides an off-track response, say Tell me as much as you can about the story.
- Otherwise, ask **Can you tell me anything more about the story?** This reminder may be used only once.

Note:
The student is not penalized for language use or grammatical errors that are due to articulation, dialect, or speaking a first language other than English.

Examples of Scoring Rules
The following are examples of the Retell scoring rules. The examples do not encompass all possible responses. If in doubt about how to score a student response, refer to the scoring rules above. Please pay attention to the notes included with the examples of responses as they provide scoring explanations and indicate variations and nuances related to the scoring.

Scoring Rule 1: Count as correct any words in the response that are related to the passage. The judgment is based on whether the student is retelling the passage or has gotten off track on another passage or topic. Move your pen through a number in the scoring booklet for each word the student provides that is related to the passage.

Examples:

**Passage**
Goldfish make good pets. They are easy to take care of and do not cost much to feed. Goldfish are fun to watch while they are swimming.

**Student response**
He has a pet goldfish. The fish is easy to take care of. He likes to watch it swim. It is a good pet.

**How to score**

<table>
<thead>
<tr>
<th>Quality of Response:</th>
<th>Retell Total:</th>
</tr>
</thead>
<tbody>
<tr>
<td>(Note: If the student provides only a main idea, it is considered one detail.)</td>
<td>24</td>
</tr>
<tr>
<td>1 Provides 2 or fewer details</td>
<td></td>
</tr>
<tr>
<td>2 Provides 3 or more details</td>
<td></td>
</tr>
<tr>
<td>3 Provides 3 or more details in a meaningful sequence</td>
<td></td>
</tr>
<tr>
<td>4 Provides 3 or more details in a meaningful sequence that captures a main idea</td>
<td></td>
</tr>
</tbody>
</table>
**Student response**

- He's got a pet goldfish because goldfish make good pets. He takes good care of his fish. He likes to watch it swim.

**How to score**

Quality of Response:

- **Retell Total:** 23

  - 1 Provides 2 or fewer details
  - 2 Provides 3 or more details
  - 3 Provides 3 or more details in a meaningful sequence
  - 4 Provides 3 or more details in a meaningful sequence that captures a main idea

*Note: Contractions are counted as one word.*

**Student response**

- The story is about a girl who has a goldfish and she really likes it.

**How to score**

Quality of Response:

- **Retell Total:** 15

  - 1 Provides 2 or fewer details
  - 2 Provides 3 or more details
  - 3 Provides 3 or more details in a meaningful sequence
  - 4 Provides 3 or more details in a meaningful sequence that captures a main idea

**Student response**

- Goldfish. And pets.

**How to score**

Quality of Response:

- **Retell Total:** 3

  - 1 Provides 2 or fewer details
  - 2 Provides 3 or more details
  - 3 Provides 3 or more details in a meaningful sequence
  - 4 Provides 3 or more details in a meaningful sequence that captures a main idea
Passage

During the last ice age, the world looked much different than it does today. Nearly all the land was covered with huge sheets of ice or glaciers. Most of the world’s water was trapped in these glaciers, and the water level of the seas was low. A vast amount of land was above the water.

The narrow waterway between Asia and North America, the Bering Strait, was mostly exposed land at that time. The land formed a narrow bridge that connected Asia with North America.

Student response

The story is about the ice age and the land was covered in ice. There were glaciers. And there was a land bridge between Asia and South America.

How to score

Quality of Response:
(Note: if the student provides only a main idea, it is considered one detail.)

1. Provides 2 or fewer details
2. Provides 3 or more details
3. Provides 3 or more details in a meaningful sequence
4. Provides 3 or more details in a meaningful sequence that captures a main idea

Note: Mistakes or inconsistencies in the recall do not count against the student as long as the student is still on topic.
Passage: The main ingredients for this recipe are cucumbers and dill weed. Both of these are easy to grow if you are lucky enough to have a vegetable garden. If you don't have a garden, you can find them in the produce department at the grocery store. Two other produce items you will need are fresh garlic and a small onion about the size of a golf ball. You will also need salt and sugar to add flavor to the pickles.

Student response: It was about making dill pickles. Pickles are made from cucumbers and dill weed. You can grow those in your garden or buy them at the store. You need salt, sugar, some garlic, and an onion the size of a baseball.

How to score:

Quality of Response:

1. Provides 2 or fewer details
2. Provides 3 or more details
3. Provides 3 or more details in a meaningful sequence
4. Provides 3 or more details in a meaningful sequence that captures a main idea

Retell Total: 41

Note: Mistakes or inconsistencies in the retell do not count against the student as long as the student is still on topic.

Scoring Rule 2: Stop moving your pen through the numbers and count as incorrect any response that is not related to the story that the student read.

Examples:

Passage: Goldfish make good pets. They are easy to take care of and do not cost much to feed. Goldfish are fun to watch while they are swimming.

Student response: He has a pet goldfish. He likes to watch it swim. I like to swim. We go swimming every Saturday.

How to score:

Quality of Response:

1. Provides 2 or fewer details
2. Provides 3 or more details
3. Provides 3 or more details in a meaningful sequence
4. Provides 3 or more details in a meaningful sequence that captures a main idea

Retell Total: 11

Note: The portion in bold is NOT counted.
### Student Response 1
He has a **uhh, a uhh** pet goldfish. The **uhh** fish is easy to **uhh** take care of, **uhh** he likes to **uhh** watch it **uhh** swim.

Kinds of Hats

0 A hat sits on top of the head. There are many kinds of hats. Some hats have special jobs, and some hats are just for fun. 15
15 A hard hat keeps the head safe. It is made out of plastic. House builders wear this kind of hat. Things that fall cannot hurt their heads. 28
28 Firefighters also use a hard hat. Their hats have a wide brim on the back to keep fire and heat away. You also wear a hard hat when you ride a bike. That hat is called a helmet. 68
68 Many workers wear hats that show the job they do. Some of these hats are made of cloth. Police officers wear a flat hat that is the same color as their uniform. Chefs wear tall white hats when they cook. 104
104 People use different hats to match the weather. Wool hats fit closely over the head. They keep the head and ears warm in the winter. Sun hats and baseball caps have a wide brim or bill. These hats shade the face and eyes from the sun in the summer. 131
131 Hats don't always have a job. Some are just for fun. Birthday party hats are made of paper. They have bright colors and cute pictures. 180
180 Next time you walk in the neighborhood, go on a hat hunt. You will be surprised at how many different hats you can find. 205

A Surprising Discovery

I was so excited to be going to the winter Olympic Games. Some of my earliest memories were of watching Olympic skaters glide beautifully over the ice. Finally, I would have the chance to watch them in person.

I was packing my bags when Mom came into my room.

"I have some bad news," she said. "There are no tickets available for any ice skating events. In fact, tickets for most events are gone. I did get tickets for one event, though. It's a new event called curling."

I was very disappointed, but I was also curious. Curling? What was that? It sounded like something I might do to my hair.

Soon, we left for the airport, but I was still a little sad. I couldn't believe I was going to the Olympics, but wouldn't get to see the skaters. Dad assured me I would enjoy curling, but I didn't quite believe him.

We checked into our hotel and then set out for the stadium. It was chilly, and had an icy floor with a large target in the center. As the games started, teams of four people worked together to guide a large granite stone toward the target. Before long, I was caught up in the excitement.

At the games, I had found a favorite team and was thrilled when they did well. I was in much better spirits as we left the curling match. We were in a beautiful place, a soft snow was falling, and there were going to be plenty of fun things to keep us busy. I might not be able to see the skaters, but I was still at the Olympics.

A Day for a Shadow Dance

0 All night long, the wind howled and the rain poured down. Gopher 12
1 woke to the sound of thunder rumbling. She looked out of her burrow 28
25 at the big raindrops splashing on the ground, "It's another rainy day," 57
27 she groaned, "When will I ever be able to run and play with my friends 59
29 again?"
53 Gopher crawled deeper into her burrow and began digging a new 64
64 tunnel to pass the time. After a while Gopher could no longer hear the 78
76 thunder and rain of the storm and she went to sleep.
88
99 When she poked her head out of her burrow the next morning, 101
101 Gopher felt the warm sun on her face. "Yipppee!" she shouted as she 114
114 scrambled out into the sunshine. All of the animals were gathered in the 127
127 meadow.
128 "Come on, Gopher," called Rabbit. "The sunshine is back and 130
130 we can play our sunny day games. I can even see my shadow," he 132
132 exclaimed.
133 Rabbit twitched his ears and watched his shadow. The ears of his 134
134 shadow twitched in exactly the same way. Gopher was pleased to see that 135
135 her own plump little shadow was back, too. All of the animals wiggled 137
137 and waved and watched their shadows move.
138 "Let's dance with our shadows to celebrate the sunshine," suggested 139
140 Rabbit. He immediately began to dance with his shadow. Gopher joined 140

</tr>
</tbody>
</table>

What is Daze?

Daze is a new measure in DIBELS Next. Daze is the standardized DIBELS version of maze procedures for measuring reading comprehension. The purpose of a maze procedure is to measure the reasoning processes that constitute comprehension. Specifically, Daze assesses the student’s ability to construct meaning from text using word recognition skills, background information and prior knowledge, familiarity with linguistic properties such as syntax and morphology, and reasoning skills.

Daze can be given to a whole class at the same time, to a small group of students, or to individual students. Using standardized directions, students are asked to read a passage silently and to circle their word choices. By design, approximately every seventh word in the Daze passages has been replaced by a box containing the correct word and two distractor words. The student receives credit for selecting the words that best fit the omitted words in the reading passage. The scores that are recorded are the number of correct and incorrect responses. An adjusted score, which compensates for guessing, is calculated based on the number of correct and incorrect responses.

Materials

- Student worksheets
- Pen/pencil
- Daze Benchmark Assessment Administration Directions And Scoring Keys
- Clipboard and stopwatch
Administration Directions

Follow these directions exactly each time with each student. Say the words in bold italic type verbatim. Begin with the modeling and practice activities. The practice activities are designed to introduce the assessment task to the student. They are untimed and include correction procedures. The correction procedures are not used once the timing begins.

1. Before handing out the worksheets, say I am going to give you a worksheet. When you get your worksheet, please write your name at the top and put your pencil down. Hand out the Daze student worksheets. Make sure each student has the appropriate worksheet. If the worksheets are in a booklet, make sure each student's booklet is open to the correct worksheet.

When all of the students are ready, say You are going to read a story with some missing words. For each missing word there will be a box with three words. Circle the word that makes the most sense in the story. Look at Practice 1.

Listen. After playing in the dirt, Sam went (pause) home, summer, was (pause) to wash her hands. You should circle the word "home" because "home" makes the most sense in the story. Listen. After playing in the dirt, Sam went home to wash her hands.

Now it is your turn. Read Practice 2 silently. When you come to a box, read all the words in the box and circle the word that makes the most sense in the story. When you are done, put your pencil down.

Allow up to 30 seconds for students to complete the example and put their pencils down. If necessary, after 30 seconds say Put your pencil down.

2. As soon as all students have their pencils down, say Listen. On her way home, she (pause) chair, sleep, saw (pause) an ice cream truck. You should have circled "saw" because "saw" makes the most sense in the story. Listen. On her way home, she saw an ice cream truck.

When I say "begin," turn the page over and start reading the story silently. When you come to a box, read all the words in the box and circle the word that makes the most sense in the story. Ready? Begin. Start your stopwatch after you say "begin."

3. Monitor students to ensure they are reading and circling the words. Use the reminders as needed.

4. At the end of 3 minutes, stop your stopwatch and say Stop. Put your pencil down. Collect all of the Daze worksheet packets.

At a later time (shortly after the testing when you are no longer with the student), compute the final score:

- Correct the worksheets and calculate each student's number of correct and incorrect responses. If a student completes the assessment before the time is up, do not prorate the score.

- Record both scores on the cover sheet. On the cover sheet, "C" designates correct responses and "I" designates incorrect responses. For benchmark assessment, also transfer the score to the front of the scoring booklet. For progress monitoring, there is no scoring booklet for Daze, but there is a progress monitoring chart to record the scores.
Scoring Rules

1. A response is correct if the student circled or otherwise marked the correct word.

2. Mark a slash (/) through any incorrect responses. Incorrect responses include errors, boxes with more than one answer marked, and items left blank.

3. If there are erasure marks, scratched out words, or any other extraneous markings, and the student’s final response is obvious, score the item based on that response.

Discontinue Rule
There is no discontinue rule.

Wait Rule
There is no wait rule.

Reminders
If a student starts reading the passage aloud, say Remember to read the story silently. This reminder may be used as often as needed.

If a student is not working on the task, say Remember to circle the word in each box that makes the most sense in the story. This reminder may be used as often as needed.

If a student asks you to provide a word for him/her for general help with the task, say Just do your best. This reminder may be used as often as needed.

Examples of Scoring Rules
The following are examples of how to score Daze responses. The examples do not encompass all possible responses. If in doubt about how to score a student response, refer to the scoring rules above. Please pay attention to the notes included with the examples as they provide scoring explanations and indicate variations and nuances related to the scoring.
Scoring Rule 1: A response is correct if the student circled or otherwise marked the correct word.

Example:

The guide explained that **hanging** so on the trees are fruits as **chocolate** as melons.

Scoring Rule 2: Mark a slash ( / ) through any incorrect responses. Incorrect responses include errors, boxes with more than one answer marked, and items left blank (if they occur before the last item the student attempted within the 3-minute time limit). Items left blank because the student could not get to them before time ran out do not need to be slashed and do not count as incorrect responses.

Example:

The guide explained that **hanging** **not** on the trees are fruits as **chocolate** as melons.

Scoring Rule 3: If there are erasure marks, scratched-out words, or any other extraneous markings, and the student’s final response is obvious, score the item based on that response.

Example:

The guide explained that **hanging** **not** on the trees are fruits as **chocolate** as melons.
Practice 1

After playing in the dirt, Sam went  home to wash her hands.
summer was

Practice 2

On her way home, she  chair saw an ice cream truck.
sleep

G3/Progress Monitoring 1
Race Car Driver

A checkered flag waves. A line of cars takes off. It's the Indianapolis Five Hundred, one of the most famous car races in the world. Many sons of people dream of driving one of the sleek, fast airplanes that come true for only a few people, but some find great success at the Indy Five Hundred. One of these people is Bobby Unser.

Bobby was working in racing in his home state of New Mexico as he learned to drive. Soon after, he started racing cars at the popular track in Indianapolis. It took six years of attempts, but he finally won the Indianapolis Five Hundred! He stopped on to win the Indy Five Hundred three times in all. Between those races, he competed and won many smaller races.

Bobby became very popular with the public. Toy companies made small race cars and other toys with his name on them. Children loved playing with these toys while imitating their racing hero with these sleek, fast cars.
Thousands of fans loved Bobby and cheered for him when he raced.

However, Bobby flying wasn't spending the only one from his family who loved local racing. His father and two

careers have all years, hasn't drove race cars. Bobby's brother, Al Unser, children also fast

won the most four times in all. Al Unser's son attempts companies has even won twice! Bobby's two

brothers did some racing, and Bobby's sons also have raced. In addition, his has even won twice! Bobby's two

the first girl in the family to drive her is the only one from her family who raced in the Indy Five Hundred and

in over a hundred races and took thirty-seven times! That is a lot of races for one family.

Today, Bobby is thankful for his many years of success and happiness.

stopped racing years ago, but he stays busy working, flying his airplane small and spending time with uncles

friends family and, however, even though he doesn't race anymore, he raced his success hasn't slowed down!
Directions: Make sure you have reviewed the scoring rules in the DIBELS Assessment Manual and have them available. Say these specific directions to the students:

1. Before handing out the worksheets, say I am going to give you a worksheet. When you get your worksheet, please write your name at the top and put your pencil down. Hand out the Daze student worksheets. Make sure each student has the appropriate worksheet.

   When all of the students are ready, say You are going to read a story with some missing words. For each missing word there will be a box with three words. Circle the word that makes the most sense in the story. Look at Practice 1.

   Listen. After playing in the dirt, Sam went (pause) home, summer, was (pause) to wash her hands. You should circle the word “home” because “home” makes the most sense in the story.

   Listen. After playing in the dirt, Sam went home to wash her hands.

   Now it is your turn. Read Practice 2 silently. When you come to a box, read all the words in the box and circle the word that makes the most sense in the story. When you are done, put your pencil down.

   Allow up to 30 seconds for students to complete the example and put their pencils down. If necessary, after 30 seconds say Put your pencil down.

2. As soon as all students have their pencils down, say Listen. On her way home, she (pause) chair, sleep, saw (pause) an ice cream truck. You should have circled “saw” because “saw” makes the most sense in the story. Listen. On her way home, she saw an ice cream truck.

   When I say “begin,” turn the page over and start reading the story silently. When you come to a box, read all the words in the box and circle the word that makes the most sense in the story.

   Ready? Begin. Start your stopwatch after you say “begin.”

3. Monitor students to ensure they are reading and circling the words. Use the reminders as needed.

4. At the end of 3 minutes, stop your stopwatch and say Stop. Put your pencil down. Collect all of the Daze worksheet packets.

Race Car Driver

A checkered flag waves. A line of cars takes off. It's the Indianapolis Five Hundred, one of the most famous car races in the world. Many people dream of driving one of the sleek, fast cars around the track. It's a dream that comes true for only a few people, but some find great success at the Indy Five Hundred. One of these people is Bobby Unser.

Bobby began racing in his home state of New Mexico as soon as he learned to drive. He soon was bringing home trophy after trophy in local races, but he longed to win the Indy Five Hundred. He got one step closer to his dream when he started racing cars at the track in Indianapolis. It took six years of attempts, but he finally won the Indianapolis Five Hundred! He went on to win the Indy Five Hundred three times in all. Between those races, he competed in and won many smaller races.

Bobby became very popular with the public. Toy companies made small race cars and other toys with his name on them. Children loved imitating their racing hero with these toys.
Thousands of fans loved Bobby and cheered for him when he raced.

However, Bobby wasn't the only one from his family who loved racing. His father and two uncles drove race cars. Bobby's brother, Al Unser, also raced in the Indy Five Hundred and won the race four times in all. Al Unser's son has even won twice! Bobby's two other brothers did some racing, and Bobby's sons also have raced. In addition, his daughter is now a race car driver. She is the first girl in the family to race. Over the years, their family has driven in over a hundred races and won thirty-seven times! That is a lot of races for one family.

Today, Bobby is thankful for his many years of success and happiness. He stopped racing years ago, but he stays busy working, flying his airplane, and spending time with friends. Even though he doesn't race anymore, he certainly hasn't slowed down!
"Please assess your students on all three oral text passages for one minute each. Then simply provide the median score of words read correctly from all three passages, and the median number of errors."
