School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### Budget Overview for the 2022-23 School Year

This chart shows the total general purpose revenue Gateway Unified School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Gateway Unified School District is $39,988,758, of which $25,823,196 is Local Control Funding Formula (LCFF), $4,378,458, is other
state funds, $1,619,793 is local funds, and $8,167,311 is federal funds. Of the $25,823,196 in LCFF Funds, $5,122,772 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

The text description of the above chart is as follows: Gateway Unified School District plans to spend $39,733,732 for the 2022-23 school year. Of that amount, $11,193,927 is tied to actions/services in the LCAP and $28,539,805 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

- The LCAP does not include the expenditures that contribute the the "Base" funding for the Gateway Unified School District. These expenses include: Base teacher salaries/benefits; Custodial/Operations; District Office Staff/Supports; Expenses related to the COVID Relief/ESSER funds received by the District.

**Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year**

In 2022-23, Gateway Unified School District is projecting it will receive $5,122,772 based on the enrollment of foster youth, English learner, and low-income students. Gateway Unified School District must describe how it intends to increase or improve services for high needs students in the LCAP. Gateway Unified School District plans to spend $7,689,202 towards meeting this requirement, as described in the LCAP.

The district is using other state and federal funds to provide extended learning opportunities during summer vacation, Presidents' Week recess, and Spring recess. These funds are being used to hire additional certificated and classified staff to support intervention classes and reduce the student-to-adult ratios in instructional settings. These funds have also provided: the hiring of an additional counselor; professional development for classified personnel; and purchasing supplemental on-line learning resources accessible in class and at home.
The chart compares what Gateway Unified School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Gateway Unified School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

In 2021-22, Gateway Unified School District's LCAP budgeted $4,553,520 for planned actions to increase or improve services for high needs students. Gateway Unified School District actually spent $3,179,670 for actions to increase or improve services for high needs students in 2021-22.

The difference between the budgeted and actual expenditures of $-1,373,850 had the following impact on Gateway Unified School District’s ability to increase or improve services for high needs students:

The District was able to use other funding sources to provide for all of our students. Through the COVID pandemic we were able to work with each student to try to meet their individual needs and try to prevent as much learning loss as possible. The funding sources provided to the District were not part of the 2021-22 LCAP. We used these sources to hire more staff, purchase devices so each student had one. The drawback for us and many Districts was the ability to hire and retain staff. We had over 70 unfilled positions at one time during the year.
## Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

Our educational partners engaged in providing input to the LCAP from August-June 2020-2021 as noted in the 2021-2022 District LCAP. Engagement opportunities continue to be offered regularly at District Advisory Council (DAC) meetings, scheduled monthly with representatives invited from each school site and open to members of the community. Planning and discussing the Local Control Accountability Plan is a standing agenda item for the DAC meetings. Prioritizing LCAP goals and expenditures have included discussing and planning the use of a variety of funding sources (ESSER, ESSER II, ESSER III, Expanded Learning Opportunities Grant, Expanded Learning Opportunities Program Grant, In-Person Instruction Grant, Comprehensive Support and Improvement Grant, Title I, Title II, Title IV, Indian Education Grants and the General Fund) to support and expand the goals of the LEA LCAP. Each school site has been directed to include planning and discussing the LCAP and School Plan for Student Achievement (SPSA) as a standing agenda item on the site's regularly scheduled School Site Council Meeting agenda. Stakeholder surveys were sent out and collected this Spring to encourage more involvement and provide continued perceptive data for prioritizing goals and actions to address student needs. Surveys were sent to all educational partner groups; students, parent/guardians, certificated & classified staffs and administration. The District English Learner Advisory Committee (DELAC) and the Native American Committee (Indian Ed.) were provided opportunities to suggest the use of funding sources during their meetings. The District cabinet and Leadership Teams met every two weeks allowing opportunities for directors and administrators to provide input on the use of funds.

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.
Gateway Unified School District is using the (15%) concentration grant add-on funds to increase the number of staff who provide direct services to students on school campuses with an enrollment of unduplicated students greater than 55 percent. The district has hired an additional registered nurse that will help our current nursing staff as an itinerant staff member visiting different school sites (all of which have an unduplicated student enrollment greater than 55 percent). In addition, the district has hired an additional elementary teacher for the Independent Student (long-term) Alt. Ed. program to accommodate families that did not want to return to the traditional classroom setting. A Special Education teacher position and a Community Day School teacher position was created to provide class size reductions in both areas. A school counselor position was increased at one of the elementary sites from part-time to full-time. In addition, four paraprofessional positions have been created to help in classrooms.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.

COVID Emergency Relief Funds (CARES, ESSER I & CRRSA ESSER II, ESSER III), Expanded Learning Opportunities (ELO-G) and Expanded Learning Opportunities Programs (ELOP) were used to support professional development, staff planning and preparation in response to the pandemic. These funds were also dedicated to expand summer school programs, credit recovery, instructional materials, and one-time technology purchases. Engagement opportunities for the use of one-time federal funds were provided in unison at meetings for the District LCAP as described earlier in this document:

Our educational partners engaged in providing input to the LCAP from August-June 2020-2021 as noted in the 2021-2022 District LCAP. Engagement opportunities continue to be offered regularly at District Advisory Council (DAC) meetings, scheduled monthly with representatives invited from each school site and open to members of the community. Planning and discussing the Local Control Accountability Plan is a standing agenda item for the DAC meetings. Prioritizing LCAP goals and expenditures have included discussing and planning the use of a variety of funding sources (ESSER, ESSER II, ESSER III, Expanded Learning Opportunities Grant, Expanded Learning Opportunities Program Grant, In-Person Instruction Grant, Comprehensive Support and Improvement Grant, Title I, Title II, Title IV, Indian Education Grants and the General Fund) to support and expand the goals of the LEA LCAP. Each school site has been directed to include planning and discussing the LCAP and School Plan for Student Achievement (SPSA) as a standing agenda item on the site’s regularly scheduled School Site Council Meeting agenda. Stakeholder surveys were sent out and collected this Spring to encourage more involvement and provide continued perceptive data for prioritizing goals and actions to address student needs. Surveys were sent to all educational partner groups; students, parent/guardians, certificated & classified staffs and administration. The District English Learner Advisory Committee (DELAC) and the Native American Committee (Indian Ed.) were provided opportunities to suggest the use of funding sources during their meetings. The District cabinet and Leadership Teams met every two weeks allowing opportunities for directors and administrators to provide input on the use of funds.
In addition to these LCAP engagement opportunities, the district held special meetings in August, September, October, and November of 2021 to help provide LCAP coordination and support from the Safe Return to In-Person Instruction Grant Plan, the Expanded Learning Opportunities Grant Plan and the ESSER III Expenditure Plan.

A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

It is a priority of Gateway Unified School District to ensure the health and safety of students, educators, and other staff, as well as to ensure the continuity of services, as required by the American Rescue Plan (ARP) Action of 2021.

The district's adopted ESSER III Expenditure Plan provides $3,775,000 for strategies for Continuous and Safe In-Person Learning; $2,600,000 for addressing lost instructional time; and $1,698,000 remaining funds to implement additional actions and support to address district needs as required by the American Rescue Plan.

Strategies for Continuous and Safe In-Person Learning
- Additional certificated staff for the district Independent Study Program
- Additional Informational Tech Position to support the use of technology for instruction
- Long term substitute teachers will be hired to assure the availability of substitutes during teacher shortage and COVID leave
- Chromebook replacement to maintain one-to-one student devices in the classroom
- Additional custodial support for day to day cleaning, disinfecting and sterilizing in classrooms and work areas
- Federal & State Grant Coordinator to monitor the use of funds and coordinate instructional goals with grant plans
- Software license purchases to support instruction and instructional planning

Successes
The district has hired an additional teacher for the Independent Study Program, allowing greater choice for families.
An additional IT position was filled to support the use of technology for instruction.
Most school sites have been able to hire long-term substitute for the school year.
Chromebooks are replaced as needed and the district is on target to replace all student chromebooks within three to four years of the original purchase/implementation date.
Sites have increased purchases for software licenses.

Challenges
Even with the hiring of long-term substitutes, sites are still short staffing due to vacant positions, quarantining staff, and staff illness.
Lack of qualified applicants, as well as staff turnover, has made it difficult to fully staff the district custodial positions.
Software licenses have been helpful, but lack of staff available for tutoring and extended school days limits successes the district strives to achieve.

Addressing Lost Instructional Time
- Extended School Year
- Additional certificated Intervention Staff for ELA & Math interventions
- Tiered Intervention Support—After-school Tutoring, Intervention Planning, individual student data analysis & student plans
- Instructional materials to support research-based instructional strategies, differentiated instruction and promote student engagement

Successes
The district successfully offered Extended School Year at every site campus last summer and will offer the same this June.
The district has been able to hire 2 additional intervention teachers.
After-school tutoring is being offered at most school sites.
Each classroom teacher has been given a budget to purchase quality instructional materials for student support.

Challenges
The lack of qualified candidates for vacant teaching positions has prevented the hiring of more intervention teachers.
The stress and strain of the current teaching atmosphere and greater responsibilities limits the number of staff available for additional after-school tutoring support.

Remaining Funds
- Support Cafeteria Staffing Salaries (loss of revenue due to COVID student absences / quarantines)
- Additional Campus Security Cameras & Keyless/Access Entry Controls (contact tracing & close contact information, and restrict entries which helps utilizing resources for cleaning, sanitizing and sterilizing student and staff work areas)
- Hire Parent Liaisons to provide support & resource information for parent needs, school connectivity, student attendance issues
- Implementation of a Social Emotional Learning (SEL) Plan, inclusive of: School Psychologist / SEL Coordinator -- Marriage & Family Therapist (Counseling Services) -- Behavior Tech -- SEL Curriculum -- Cool Down Areas/Rooms -- Professional Development -- SEL Advisory Committee Extra Duty -- Support Materials – Additional nursing staff to provide SEL & student services support, test for COVID, and coordinate COVID requirements, Additional Counselors

Successes
This school year, there has been less need to subsidize the anticipated loss of revenue to the district’s Food Service Program.
Additional Campus Security Cameras is being completed and finalized at all sites. The Keyless/Access Entry Controls project has begun.
A school psychologist/SEL coordinator was hired along with additional nursing staff (RNs and LVNs).
The district has increased a counseling position by FTE 0.4, is in the process of hiring another counselor, and has plans to hire an additional counselor to begin at the start of next school year.
Challenges
Hiring for vacant positions is difficult in all staffing areas. Developing a Social Emotional Learning Plan has been difficult. Leadership teams are having to prioritize programs and projects due to the inconsistency of available staff, additional changes in mandates, and community concerns associated with varying viewpoints.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.

Gateway Unified School District considers the LCAP to be the primary comprehensive planning document for prioritizing and achieving the district goals and actions:

- Goal 1: Gateway Unified School District will work in partnership with parents and the community to assure that all students meet or exceed state standards. Developing and sustaining high performing schools for all PreK-12 students to graduate career and college ready without remediation.
- Goal 2: Gateway Unified School District students/staff will learn and work in a safe, supportive, and caring environment.
- Goal 3: Gateway Unified School District will engage with the community to meet the District’s Mission and Vision.
- Goal 4: Gateway Unified School District will ensure that the work force is highly qualified and well trained.
- Goal 5: Gateway Unified School District will provide and maintain facilities and grounds that enhance student learning and accommodate student capacity.

Fiscal resources received for the 2021-22 school year were aligned to the LCAP through the same process that the district takes each year to develop, analyze and modify the goals of the LCAP:

Plans are developed for each major fiscal resource. Actions within the plans must have outcomes consistent with LCAP goals. Engagement opportunities must be offered for input. Leadership teams, the District English Learner Advisory Committee (DELAC), The Native American Committee, School Site Councils and the District Advisory Council need to be offered opportunities for engagement and approval of these plans.

The Instructional Service Dept. and the Business Dept. prioritize and modify the expenditure plans when fiscal resources are targeting the same desired outcome and/or funds are not expensed due to the inability to complete planned actions. Using fiscal resources that have spending deadlines due first is a consideration as part of the prioritization.

Major expenditures and proposed expenditures include:

Goal 1: additional teachers & instructional support staff, maintain one-to-one devices & engaging software, extended school year and after-school tutoring,

Goal 2: personal protective equipment, ventilation and cooling project, security cameras & keyless access, additional counselors and nursing staff

Goal 3: provided opportunities for engagement
Goal 4: professional development
Goal 5: included in goal 2

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:

• The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
• All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
• Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:

• The 2022–23 Budget Overview for Parents
• The 2021–22 Supplement
• The 2022–23 LCAP
• The Action Tables for the 2022–23 LCAP
• The Instructions for the LCAP Template
As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

**Instructions**

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

**Prompt 1:** “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

**Prompt 2:** “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”

If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

**Prompt 3:** “A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”
If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page (https://www.cde.ca.gov/fg/cr/relieffunds.asp) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page (https://www.cde.ca.gov/fg/cr/) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

Prompt 4: “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

Prompt 5: “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education  
November 2021
Local Control Accountability Plan

Plan Summary [2022-23]

General Information
A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

The Gateway Unified School District serves approximately 2300 students from Pre-K thru 12th grade. The District is comprised of seven schools. Five schools, Grand Oaks (K-5), Shasta Lake (K-8), Central Valley High School (Comprehensive 9-12), Mountain Lakes High School (Alternative program 10-12), and Community Day School (7-12) are located in the City of Shasta Lake. Two schools, Buckeye School of the Arts (K-8) and Gateway Educational Options (TK-12) are located in the city of Redding. Shasta Lake City is a city of approximately 10,000 residents and Redding is a city of approximately 90,000 residents. The District also serves students from the communities of Mountain Gate and Lakehead, which are located north of Shasta Lake City. The ethnic population of the District is comprised of 69% White, 15% Hispanic, 7% American Indian / Alaska Native, 3% Asian, 2% African American, less than 1% Pacific Islander, less than 1% Filipino, and 6% two or more races. The District has a 20%+ special education population throughout the school year with an approximate 74% socioeconomically/disadvantaged population. Foster Youth, English Learners, and low-income students make up approximately 80% of Gateway Unified School District student enrollment. The unique needs of these students are the primary focus for each action across the entire school district. Each of Gateway's schools qualifies for the Title I school-wide program. Major initiatives for the district include the implementation of Professional Learning Communities (PLC’s), a commitment to have all students reading at or above grade level by the end of third grade, development and implementation of Tiered Intervention (RTI) plans to meet the needs of “All” learners, and a focus on STEM/STEAM education and Robotics. The Gateway District has one to one technology devices in each classroom using Chromebooks with a Google platform. The Gateway District continues to focus on “Learning for All” to ensure that students graduate with the skills to enter college or a career field. Each Gateway school has a strong commitment to community service.
Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Overall proficiency in Reading and Mathematics has declined as indicated by the NWEA Winter assessment comparisons for 2020-21 and 2021-22. However, the decline at the high school level is less than 5% of the pre-pandemic percentage of students at or above grade level for both Reading and Math. The high school student learning losses of less than 5% is promising under the pandemic circumstances when comparing it with K-8 students learning loss of 7-10%. Parent and student surveys indicate that the majority of those completing surveys were generally satisfied with the district's handling of the pandemic and providing instruction to students. Most parents appreciated the instructional choices the district has offered (Independent Study and In-Person Instruction). Most parents (68%) indicated their child feels safe at school. Central Valley High School showed growth in A-G Completion from 45.6% to 58.82%.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Foster Youth, English Learners, and low-income students make up approximately 80% of Gateway Unified School District student enrollment. The unique needs of these students are the primary focus for each action across the entire school district. Each of Gateway's schools qualifies for the Title I school-wide program.

Greatest Needs:
(Note: With a district socioeconomically disadvantaged percent of 74%, the LCAP is written as a district wide plan.)

When comparing 2021-22 NWEA Winter Assessments with the 2019-20 NWEA Winter Assessments the following are areas of greatest need: (note: 2020-21 NWEA Winter Assessments were incomplete due to an extreme number of student absences as a result of COVID cases during the assessment window)
1. ELA - the district percentage of students scoring at or above grade level dropped from 56.5% to 46.9% with all measured grade levels (K-11th) dropping. High school students had a less significant decline that other students, with an average drop of less than 5%. K-8 had a decline of over 7-10% on average.
2. Math - the district percentage of students scoring at or above grade level dropped from 51.8% to 46.7% with all measured grade levels (K-11th) dropping. High school students had a less significant decline that other students, with an average drop of less than 5%. K-8 had a decline of over 5% on average.
3. Suspension Rate dropped from 9.1% to 6.4%.
4. Attendance rates per site dropped from averages of 92%-95% to averages of 85%-89%.

The district benchmark data for 2021-22 indicates a significant need to address learning loss for ELA & Math performance levels.

Steps to address greatest needs:
1. Sites’ primary goal is to improve reading.
a. PLC's focus on reading instructional strategies, data analysis & use of formative assessments.
b. Increase reading intervention
c. Instructional coaching support for reading instruction

2. Site Intervention Teams monitor academic and behavioral progress of students and develop site and individual student plans to improve student learning.

3. Professional Development Plan includes Social Emotional Learning (SEL) training and implementation of SEL curriculum.

4. Site implementation of Positive Behavior Strategies.

5. Hire additional staff to support student learning.

The limited and inconsistent assessment data points has made it difficult to get up-to-date assessment data. Not having all students present during the year, due to quarantines and over-cautions of absences, lacked normalcies, possibly skewing data. As a result of these conditions the district chooses to continue with most of the goals and actions that were in place prior to the pandemic, plus adding greater emphasis to Social Emotional Learning, Learning Loss and Attendance.

**LCAP Highlights**

A brief overview of the LCAP, including any key features that should be emphasized.

A primary goal of the LCAP is to have 90% of all students reading at or above grade level by the completion of third grade. All other goals, outcomes, services and actions within the LCAP influence this primary goal or are influenced by it. The PLC process is a 'best practice' for teacher collaboration to improve instruction, with primary instructional strategies following Dr. Marzano's Art and Science of Teaching Framework; Domain 1 Classroom Strategies and Behaviors, 3 Lesson Segments, 9 Design Questions, and 41 elements or instructional categories. The NWEA assessments are among the best assessments to monitor growth in reading and math. The services and actions tied to technology and the district's 1:1 initiative is focused on improving instruction and student interest through the use of technology. Instructional coaching and professional development will introduce and help sustain growth in improved instructional practices and strategies. The LCAP focus on academic and behavioral intervention supports will help students to reach grade level. Students at grade level need interventions, challenging courses and opportunities to excel and reach their highest capacity. Reading below grade level diminishes students' chances of success.

**Comprehensive Support and Improvement**

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Buckeye School of the Arts, Community Day School, Mountain Lakes High School, & Shasta Lake School
Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

The LEA (Gateway Unified School District) is utilizing both district and school staff to create and implement site specific Comprehensive Support and Improvement (CSI) plans. District Office resources are helping sites collect and analyze data and information to develop the needs assessment and address the inequities that emerge as a result of the analysis. Targeted data and information for the needs assessment include:

- CA School Dashboard Data (current data not available)
- CAASPP Interim Assessments
- Northwest Evaluation Association (NWEA) Fall, Winter, Spring assessments
- BPST Primary Grade Assessments
- Educational Partner Perception Surveys
- District Attendance Data
- District Discipline Data

The CSI plans have been developed in conjunction with the School Plan for Student Achievement (SPSA) and the actions contained within it. Input for, and implementation of, the CSI Plan and SPSA are supported through each site’s Professional Learning Community (PLC) process. In addition to staff PLC teams that meet weekly, each site has a PLC Leadership team that meets regularly to review attendance, discipline, and available academic data. The leadership teams also provide crucial insight in the development of the LEA’s Local Control and Accountability Plan (LCAP). The LEA LCAP will be instrumental for assuring resources are available to sites to continue to implement CSI plans beyond the current school year.

Initial analysis of the Data indicates Academic Engagement and Conditions & Climate concerns and possible inequities for students at each of the school sites, resulting in high suspension rates and chronic absenteeism percentages:

- Buckeye School of the Arts --Overall Suspension Rate higher than district average of 6.4%; --Attendance rate 85%-89% grade level averages
- Community Day School --Overall Suspension Rate higher than district average of 6.4%; --Attendance rate below 85%
- Mountain Lakes High School --Overall Suspension Rate higher than district average of 6.4%; --Attendance rate below 85%
- Shasta Lake School --Overall Suspension Rate higher than district average of 6.4%; --Attendance rate 85%-89% grade level averages

Academic Engagement and Conditions & Climate indicators are a primary focus area. Improvement in these areas should contribute to positive growth in Academic Outcomes. The LEA will provide specific data (monthly & quarterly) to the school sites in the form of spreadsheets that indicates each student identified as chronically absent and/or having a suspension. Information will also include the student’s academic assessment levels and student group. This information will help site intervention teams identify possible inequities.
will determine the best evidence-based course of action to implement/expand on to improve areas of Academic Engagement and Conditions & Climate at the school. (Two of the sites have indicated the need for continued training in PBIS and the other two sites will receive support for Connecting the Brain research and training.) All sites have adopted SEL curriculum.

As a result of the initial data analysis, one of the findings determined that several students have been negatively impacted by resource inequities outside of school (family support, community resources, basic needs, etc.). The district is exploring the possibility of hiring a parent/guardian liaison to help support family engagement. Another finding determined an inequity for the use of the LEA School Resource Officer (SRO). The SRO has been scheduled to spend most of his time at the conventional high school. The schedule has now been modified in order to allocate more in-person time to the four school sites developing CSI plans. The SRO will work on establishing relationships with students, help in the development of a culture of trust at the sites, and make home visits.

The LEA is requiring each site to present their CSI Plan at a district leadership meeting and at a District Advisory Council meeting. Both presentations are designed to provide suggestive feedback and support for the site plans. Each site will provide updates and progress at these meetings throughout the school year.

The district Instructional Services department will assist sites with information for research-based & evidence-based interventions and professional development opportunities. District Instructional Coaches will provide assistance in the development and implementation of each CSI plan, as well as assisting in monitoring improvements resulting from actions embedded in the plans. District calendared Professional Development Days have been dedicated to the planning and implementation of site plans; Aug. 2022, & Jan. 2023.

**Monitoring and Evaluating Effectiveness**

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

The LEA, through monthly district Leadership PLC Meetings, will present each site administrator with current suspension and chronic absenteeism data specific to their school. Academic benchmark assessment data will be presented at the close of the fall, winter and spring assessment windows. The Leadership PLC Meetings will provide an opportunity for discussion, suggestions and support related to improving student achievement.

Site's are required to share ongoing data and SPSA & CSI progress in monthly School Site Council (SSC) meetings and quarterly Title I Parent Meetings, soliciting educational partnership feedback. Modification and changes to either planning document should be determined by the most current 'needs assessments'. The SSC will continue to be involved in the process for updating the SPSA and CSI using evidence-based planning and decision making to improve student outcomes.

Schools will be asked to provide a presentation on the progress of CSI actions after the Spring assessment window closes. The presentation will be given at the District Advisory Council, the Leadership PLC Meetings, and to the site SSC (and/or) Title I Parent Meeting. Opportunity to answer questions and provide feedback will be part of each presentation.
School Climate Surveys will be given to staff, students and parents/guardians in late Spring before Summer Recess. Site Leadership Teams will meet to analyze available data and information that was targeted for the development of the site’s needs assessment. District Department Directors will participate in the meeting. The results of the meeting will be shared at the site’s May/June SSC meeting.
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

The District Advisory Council, (DAC) has met monthly with representatives from each school site. Sites are asked to select a parent, teacher and classified staff member to represent their school along with a site administrator. The DAC meetings are open to all parents, teachers, school staff, and members of the community. Due to the pandemic, these meetings have been conducted through Zoom and/or Google Meet this school year. Planning and discussing the Local Control Accountability Plan is a standing agenda item for the DAC meetings. Prioritizing LCAP goals and expenditures included discussing and planning the use of a variety of funding sources (ESSER, ESSER II, ESSER III, Expanded Learning Opportunities Grant, In-Person Instruction Grant, Comprehensive Support and Improvement Grant and the General Fund) to support the goals of LCAP. Participating members of DAC have been asked to identify the needs of students and the best use of funds to address those needs. Educational Partnership surveys were also sent out and collected to encourage more involvement and provide additional perceptive data for prioritizing goals and actions to address student needs. Surveys were sent to all educational partnership groups; parent/guardians, certificated & classified staffs and administration. Site administration provided opportunities for site specific input by reaching out to student groups for perceptual data. They also included LCAP discussions as standing agenda items on their monthly School Site Council Meetings and Parent Involvement Meetings. The Director of Special Education and the District Leadership Team met with administrative staff from the Special Education Local Plan Area (SELPA) to specifically discuss concerns and support for Students with Disabilities—which have been identified as a consistently Low-performing Student Group. Native American Parent/Educator meetings were held quarterly to discuss concerns and support for Native American students—which have been identified as a consistently Low-performing Student Group. The Local Control Accountability Plan draft was presented at the June 22, 2022 District School Board Meeting for a Public Hearing. Educational Partners had the opportunity to provide additional feedback before the final plan was presented for approval at the school board meeting on June 29, 2022.

A summary of the feedback provided by specific educational partners.

All educational partnership groups have expressed concerns with Learning Loss due to the pandemic and school safety issues. The majority of parents, students and teachers support increased security/safety measures and the desire for additional learning opportunities (i.e. summer school, extended instructional times). Students and parents want assurances that services are available: i.e. counseling, sports, after school programs, small class size. Learning loss was a main concern with parents and teachers, asking for additional opportunities to help struggling students; (i.e. small group instruction, tutoring, summer school and credit recovery). Students' main concerns centered on the desire for social opportunities and the need to stay connected with friends and school staff. Parents of English Learner, through the District English Learner Advisory Committee (DELAC), expressed concerns with Learning Loss and the continued loss of quality In-Person Instruction with quarantines and substitute teachers filling in for the classroom teacher, due to COVID exposures. Both bargaining units supported discussions for updating Memorandums Of Understanding (MOU's). Their prevailing focuses center around compensation for extra duty, staff safety and fearing the loss of accumulated sick leave. Site administrators were in agreement that staff absences and lack of sub teachers heavily impacted instruction again last year. The majority within all educational partnership groups showed appreciation for the district's handling of the pandemic. The district's Special Education Department and administrative staff from SELPA discussed the need to identify a 'Problem of Practice' and providing a support team which includes Supporting Inclusive Practices (SIL-Kevin Schaefer) in the upcoming 2022-23 school year. The support team will also help with the district's CDE Extensive Monitoring process. Parents/educators of
Native American students discussed the need to have better ongoing relevant communication between parents and schools with the sharing of real time data.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Educational partnership input strongly supports embedding site counselor positions, the district music program, adding an art program, and academic & behavior intervention strategies within the LCAP goals and actions. Educational partners indicated the need for additional support for school safety and improving student attendance. Through consultation with SELPA & SIL, establishing a standard for developing, monitoring, implementing and reviewing the implementation of IEPs has been identified as 'A Problem of Practice'. The district Special Education Dept. will continue to work with SELPA to establish and implement a standard for all IEPs. Through discussion with parents of Native Americans during Indian Education Parent Meetings, parent communication and parent involvement has been identified as 'A Problem of Practice'. The district Coordinator of Federal Programs will continue to work with parents of Native Americans to establish and improve communication and involvement with the Native American Community.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Goal 1: Gateway Unified School District will work in partnership with parents and the community to assure that all students meet or exceed state standards. Developing and sustaining high performing schools for all PreK-12 students to graduate career and college ready without remediation.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Gateway developed this goal as part of an overall strategic plan for the district’s Foster Youth, Low Income and English Learner students to meet the requirements for graduation. The goal includes several action steps to be achieved through the implementation of state standards, improving student achievement and assuring course access. The district wants to continue the work that has been done toward accomplishing this goal from the previous LCAP. The district has extended the focus of Goal 1 to target the student groups: American Indian (Native Americans) and Students with Disabilities—which have been identified as consistently Low-performing Student Groups.

| 1.5      | Improve the academic proficiency of English Learner pupils. | 1.5a Provide continued services for English Learner pupils in grades TK-12. EL students need additional support in order to develop their academic skills. The additional support will be provided by a certificated teacher as the coordinator of the EL program and 3 paraprofessionals working to support the five school sites.  
1.5b Provide English Learner state approved supplemental instructional materials.  
1.5c Provide the parents of English Learners an opportunity for ESL classes so they can better support the learning of their student and improve communication with school educators. | $181,825.00 | Yes |
| 1.6      | Improve the academic proficiency of Students with Disabilities, (identified as a consistently Low-performing Student Group), & students receiving interventions. | 1.6a Continue funding an additional Resource (RSP) teacher position to lower the teacher to pupil ratio and provide support for academic and behavioral interventions. The district RSP teacher to pupil ratio was 28:1 (2015-16). Adding this position has reduced the teacher to pupil ratio to 24:1. The RSP teachers will continue to serve on site intervention committees, provide intervention support and participate in grade level PLCs. Intervention Committees will review ongoing data (behavioral referrals, attendance, reading and math assessments) and help implement recommended interventions such as; use of supplemental materials and other intervention resources, provide staff support, provide training and professional development, attend SST’s and develop individual behavioral plans.  
1.6b Continue funding increased Speech Pathologist services for students in the Gateway District to lower the teacher to pupil ratio from 65+:1, to a ratio of 50:1, and provide support through site academic and behavior intervention plans. Speech Pathologists will serve on site intervention committees, provide intervention support and participate in grade level PLCs. Intervention Committees will review ongoing data. | $1,248,055.00 | Yes |

The district Coordinator of Federal Programs will continue to work with parents of Native Americans to establish and improve communication and involvement with the Native American Community. | $141,396.00 | Yes          |

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.  
A description of any substantive differences in planned actions and actual implementation of these actions.

Professional development opportunities were at a minimum for in-person training, and were sporadic in quality for virtual trainings. Some of the key professional development planned has been postponed until next school year. The district was unable to implement some actions related to learning interventions. Lack of applicants for intervention staffing for certificated and classified positions created vacancies that were not filled in a timely manner. Opportunities for after school programs (STEM/STEAM, tutoring) were minimized due to unavailability of current staff wanting to work additional hours, as well as COVID considerations/cases suspending after school programs.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

ESSER funds, instead of Supplemental/Concentration funds, were used to purchase one to one devices. In addition, some personnel positions were not filled due to a lack of qualified applicants. Some planned professional development was not available because of restrictions on large group, in-person, venues. Intervention/learning loss opportunities were limited because of the lack of staffing willing to work extra, despite increases in compensation for the extra work.

An explanation of how effective the specific actions were in making progress toward the goal.

Some gains were made toward the progress of the goal. However, lack of resources (staff & time) minimized the amount of progress that was needed. Student absenteeism, COVID quarantines, teacher absences, and the inability to meet in-person for professional development, all contributed to the prevention of greater success toward meeting the goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Through educational partnership feedback, the desire and benefit of having an Art teacher at the high school was recognized and added to the goal. Increasing paraprofessional position to 6-8 hours per day with benefits was also recognized and added to the goal. In order to attract qualified teachers, a separate salary schedule has been adopted by the school district in order to provide higher salaries to teachers teaching special education special day classrooms. Parent/Community Liaisons have been hired for all three elementary sites--part of their duties will include outreach to families of chronic absent children. The district has extended the focus of Goal 1 to include the student groups: American Indian (Native Americans) and Students with Disabilities--which have been identified as consistently Low-performing Student Groups. The district will work with each (CSI) site that has been identified with Low-performing Student Groups, meeting monthly with site leaders and County Office of Education support personnel to monitor and assess planned actions to target improvements. Monthly benchmark data on suspension, expulsion, and attendance will reviewed at these meetings, along with Fall, Winter and Spring Reading and Mathematics Benchmark assessments. The district extended the focus of Goal 1 to specifically include targeting the student groups: American Indian (Native Americans) and Students with Disabilities--which have been identified as consistently Low-performing Student Groups. Through consultation with SELPA and the 'Supporting Inclusive Practices' (SIL-Kevin Schaefer) support team, establishing a standard for developing, monitoring, implementing and reviewing the implementation of IEPs has been identified as 'A Problem of Practice'. The district Special Education Dept. will continue to work with SELPA and the SIL support team to establish and implement a standard for all IEPs. Ongoing training, data, and strategies will be shared monthly with the district leadership team and Special Education PLCs. Through discussion with parents of Native Americans during Indian Education Parent Meetings, parent communication and parent involvement has been identified as 'A Problem of Practice'. The district Coordinator of Federal Programs will continue to work with parents of Native Americans to establish and improve communication and involvement with the Native American Community, as well as monitoring and sharing real time data regarding Native American students.
A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

<tbody>
<tr>
<td>2</td>
<td>Goal 2: Gateway Unified School District students/staff will learn and work in a healthy, safe, supportive, and caring environment.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Gateway developed this goal as part of an overall strategic plan to provide the district's Foster Youth, Low Income and English Learner students a safe and secure learning environment. All stakeholder groups indicate their primary concern is learning and working in a healthy and safe environment. The district wants to continue the work that has been done toward accomplishing this goal from the previous LCAP. The district has extended the focus of Goal 2 to include the student groups: American Indian (Native Americans) and Students with Disabilities--which have been identified as consistently Low-performing Student Groups.

Goal Analysis [2021-22]
An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

The REACH opportunity program was not fully staffed with qualified personnel throughout the school year. Some student families chose independent study and other students were placed back into the regular classrooms.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

ESSER and other one-time funds were used to fund some actions, reducing the estimated actual expenditures. The district was unable to find qualified staff for the REACH programs. Substitute teachers were utilized throughout the school year. The cost of staffing was reduced considerably.

An explanation of how effective the specific actions were in making progress toward the goal.

The opportunity program was less affective due to COVID quarantines, unavailability of full and consistent staffing, and lack of continuity.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In order to attract qualified teachers, a separate salary schedule has been adopted by the school district in order to provide higher salaries to teachers teaching opportunity classes and special education special day classrooms. Parent/Community Liaisons will be hired for all three elementary sites--part of their duties will include outreach to families of chronic absent children. The district has extended the focus of Goal 2 to include the student groups: American Indian (Native Americans) and Students with Disabilities--which have been identified as consistently Low-performing Student Groups. Two contributing areas for concern with these Low-performing Student Groups are the high suspension rates and the high chronic absenteeism rates. The district will work with each (CSI) site that has been identified with Low-performing Student Groups, meeting monthly with site leaders and County Office of Education support personnel to monitor and assess planned actions to target improvements. Monthly benchmark data on suspension, expulsion, and attendance will be reviewed at these meetings. Through consultation with SELPA and the 'Supporting Inclusive Practices' (SIL-Kevin Schaefer) support team, ongoing training, data, and strategies will be shared monthly with the district leadership team and Special Education PLCs. Through discussion with parents of Native Americans during Indian Education Parent Meetings, the district Coordinator of Federal Programs will continue to work with parents of Native Americans to establish and improve communication and involvement with the Native American Community, as well as monitoring and sharing real time data regarding Native American students.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal 3: Gateway Unified School District will engage with the community to meet the District’s Mission and Vision.

An explanation of why the LEA has developed this goal.

Gateway developed this goal as part of an overall strategic plan to improve stakeholder engagement for the district’s Foster Youth, Low Income and English Learner students. The district recognizes that increased stakeholder engagement promotes stronger gains in student learning. The district wants to continue the work that has been done toward accomplishing this goal from the previous LCAP.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.  
A description of any substantive differences in planned actions and actual implementation of these actions.

Normal meetings and events were not held due to COVID concerns and precautions for large group gatherings. Some events were held virtually but sites did not record the number of parent participants. The district distributed an annual survey targeting feedback for the LCAP goals and state priorities, with 193 parents completing the survey.  
Unfortunately, every school site was not able to distribute a survey of their own to ask for parental/community input on site and district issues.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Funding for materials and teacher extra duty stipends to support meetings and gathering was not utilized due to the lack of planned events.

An explanation of how effective the specific actions were in making progress toward the goal.

The lack of scheduled events made it difficult to understand how all parents were feeling about the handling of the pandemic and student learning. A vocal group of parents expressed their frustration with the state government's handling of it.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

No changes have been made, and the plan will be implemented next school year.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Goal 4: Gateway Unified School District will ensure that the work force is highly qualified and well trained.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Gateway developed this goal as part of an overall strategic plan to meet the needs of the district's Foster Youth, Low Income and English Learner students. Providing students with highly qualified and well trained staff will ensure the completion of the actions embedded in all goals. The district wants to continue the work that has been done toward accomplishing this goal from the previous LCAP.

### Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

100% of teachers new to the teaching profession participated in the Tehama County Office of Education Teacher Induction Program (T-TIP). Teacher Interns cannot enroll into the T-TIP program until after they clear internship requirements. The Gateway-Teacher Induction Program (G-TIP) was suspended due to COVID. Some aspects of the program were shared with teachers new to the district.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

ESSER and other one-time funds were used to fund the T-TIP new teacher induction program, reducing the estimated actual expenditures.
An explanation of how effective the specific actions were in making progress toward the goal.

| Instructional coaches, T-TIP instructors, and the EL coordinator worked to assure Goal 4 was achieved. Professional development opportunities were not as available as in past years, especially at the start of the school year. These opportunities improved in the second half of the year. |

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

| Gateway induction training (G-TIP) was modified due to COVID, with less training/informational sessions, which were conducted through Google Meet. |

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
### Goals and Actions

#### Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>Goal 5: Gateway Unified School District will provide and maintain facilities and grounds that enhance student learning and accommodate student capacity.</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Gateway developed this goal as part of an overall strategic plan to address the needs of the district's Foster Youth, Low Income and English Learner students. The district strategic plan was developed with input from all stakeholders; parents, students, teachers, District English Learner Advisory Committee, administrators, and classified staff. All stakeholders recognized that maintaining facilities and grounds has a positive impact on student attitudes and achievement. The district wants to continue the work that has been done toward accomplishing this goal from the previous LCAP.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Actions were implemented as planned. There was a need for more staffing to support the use of technology. Overtime was required in order to keep up with site needs.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Using ESSER funds on qualified expenses reduced some planned expenses for Goal 5. The lack of availability to hire qualified staff reduced expenditures for the budgeted year. Vacant positions were difficult to fill in a timely manner.

An explanation of how effective the specific actions were in making progress toward the goal.

The IT Department and Maintenance & Operations staffs were able to complete the actions in Goal 5. Both staffs put in extra work in order to provide the services and quality needed to reach this goal.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There were no changes to the planned goal. There is a consideration to increase Informational Technology staffing to support the demands for technology use.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

### Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Foster Youth, English Learners, and low-income students make up approximately 80% of Gateway Unified School District student enrollment. The unique needs of these students are the primary focus for each action across the entire school district. Each of Gateway’s schools qualifies for the Title I school-wide program. After assessing the needs and circumstances of our low-income/foster/EL students, we have determined the following needs: lack of proficiency in ELA/Math/Science, college and career readiness, attendance and suspension rates. In order to address these needs, we will implement the following actions and services.

The following summary describes the intended use of funds and effectiveness of programs and services in meeting the goals of our enrolled Foster Youth, English Learners, and Low-Income students.

**Goal 1: Assuring students meet or exceed state standards:**

**Action 1 -- Increasing the number of students that demonstrate proficiency in English Language Arts, Mathematics and the Sciences.**

Providing opportunities for staff professional development is a major tool for achieving this commitment. Funding allows for staff training and
planning toward Intervention & instructional strategies, and training on the use of technology to enhance learning. The use of technology devices and the introduction to STEM activities will help support and enhance learning, preparing students beyond their school years.

Action 2 -- Increase the number of student graduates college and career ready: Supporting school cultures to promote college and career readiness will introduce students to future possibilities. Giving students choices within a broad course of study as well as chances for credit recovery will help ensure student potential and successes.

Action 3 -- Increase the number of students reading at or above grade level: Reading at or above grade level is essential for student success. The district recognizes the need for additional resources (certificated & classified staff, a reading assessment program) to help provide reading support for struggling readers.

Action 4 -- Teachers and administration will participate in collaborative decision making, aligning best instructional practices, and building collegial support through the Professional Learning Community (PLC) process: The professional learning community model enables teachers to work together to analyze and improve instruction and student learning.

Action 5 -- Improve the academic proficiency of English Learner pupils: An EL district coordinator supports teachers and works with paraprofessionals to ensure EL students reach academic proficiency and have the necessary instructional materials.

Action 6 -- Improve the academic proficiency of Students with Disabilities & students receiving interventions: Students with disabilities accounts for 17% - 20% of the district's student enrollment. Factored with district assessments that indicate over 40% of district students are below grade level in reading, mathematics, or both, promotes the need for additional certificated staff to help provide greater access to interventions.

Goal 2: Students/staff will learn and work in a healthy, safe, supportive, and caring environment:

Action 1 -- Increase attendance rates & decrease the number of student suspensions and truancy rates: Resources are needed to provide student accountability, more supervision and classrooms designed for students struggling with attendance and/or behavior, (Assistant Principals, Counselors, Attendance Clerks, SRO, certificated and classified staff).

Goal 3: Engage with the community to meet the District’s Mission and Vision:

Action 1: Communication and participation of educational partners will increase through ongoing district organizations and committees: The district will provide support to promote stakeholder engagement.

Goal 4: Ensure that the work force is highly qualified and well trained:

Action 1: Work Force Requirements: The Human Resource Department will participate in professional development to ensure high quality hiring practices for staff are maintained.
Action 2: New Teacher Training: New teachers will be enrolled in the Teacher Induction Program (T-TIP) offered through Tehama County Office of Education and the Gateway Teacher Induction Program (G-TIP).

Goal 5  Provide and maintain facilities and grounds that enhance student learning and accommodate student capacity:
Action 1: Provide an environment that promotes student learning: The district will annually review (and implement) the 10 year facility plan.
Action 2: Provide a highly secure technology infrastructure and thorough security processes to take advantage of the power of technology to improve learning outcomes for all students: Fund Informational Technology Technician positions and provide professional development to maintain highly trained & skillful technology technicians.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

The district’s unduplicated population represents approximately 74% of students. The district plans to use the supplemental/concentration funds generated by these students as outlined in detail in the Goals and Actions Section. All services are planned to be implemented district/school-wide because of the high percentage of targeted students. All actions/services are proposed to ensure positive outcomes for student achievement and school connectedness. The primary benefit is for the targeted students, Foster Youth, English Learners, and Low-Income students, but all students will benefit from the plan. The district believes these are the most effective uses of the additional funds to increase academic achievement and preparation for college and career. Students at all academic levels should have the opportunities to work together, collaborate, and be accountable for one another's learning. Goal 1, Action 5 is specific to only English Learners, providing support for an EL Coordinator, paraprofessionals, and EL instructional materials.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Additional concentration grand add-on funding will be used to provide: an Art program at Central Valley High School (offering access to a broad course of study); hire parent/community liaisons to increase services and communication with educational partners; increasing paraprofessional positions that work directly with students to a minimum of 6-8 hours with benefits in order to incentivize hiring and retention; hire three additional campus monitors to provide a greater level of safety and security, and to hire additional intervention staff/

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning**: The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners**: The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance**: The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: https://www.cde.ca.gov/re/lc/.

Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
**Focus Goal(s)**

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Broad Goal**

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

**Required Goals**

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated...
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results:**
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions:** Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. **(Note:** for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners:** School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis:**

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants:* Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools:** Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**For School Districts Only:**

**Actions Provided on an LEA-Wide Basis:**

**Unduplicated Percentage > 55 percent:** For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent:** For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Actions Provided on a Schoolwide Basis:**
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
• Table 2: Contributing Actions Table (for the coming LCAP Year)

• Table 3: Annual Update Table (for the current LCAP Year)

• Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

• Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table
The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

• **LCAP Year**: Identify the applicable LCAP Year.

• **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

• **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

• **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

• **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

• **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action’s number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?**: Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

If “Yes” is entered into the Contributing column, then complete the following columns:

- **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.

- **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
**LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

**Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

**Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

**Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

**Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

**Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

**Contributing Actions Table**
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
• **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

- 4. **Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. **Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column

- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
  - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. **Estimated Actual LCFF Supplemental and Concentration Grants**
  - This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- 4. **Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  o This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  o This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  o This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  o This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  o This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  o This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  o This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  o If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
• 13. LCFF Carryover — Percentage (12 divided by 9)
  
  o This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
